1296: Alter table is not working due to trigger issue.  
1297: Trigger is only for req\_logs, trigger is not for log\_global.  
1298: Filer values are hardcode for "track" need to optimize the queries.  
Global clear is not working properly.  
changes required: need to rearrange the filter order 1) Req Type 2)Track  
3)Status 4) Acc Mgr 5) State  
1299: Not able to add column due to trigger issue  
1300: dependent of 1299  
1301: Filer values are hardcode for "track" need to optimize the queries.  
1351:Block issue, Block date (default date 12-31-69 is getting stored)  
1352: Filer values are hardcode for "Block" need to optimize the queries.  
1354: Alignment issue when sorting data, Select need to be removed market  
" >reqs  
1354: After selection Location is not getting collapse.  
fields need to arrange properly, cache is not getting clear after newly inserted  
data.  
Char count label need to be arranged properly.  
close date field is getting loaded little down need to be align properly.

---

1347: Create Market requirements for Market main menu and put it in txt file for  
reviews ( DELETING THIS REQ AS GOING SAME AS ADMIN)

1348 : Move existing code / remove comment, identify common functions, identify  
new common function ( DELETING THIS REQ AS GOING SAME AS ADMIN)
